LITTLE STORIES ON FEEDING

Gained 26 Pounds

A Missouri druggist wrote us a few days ago that his wife had suffered a nervous breakdown and was in a precarious condition. His doctor advised him to use HEMO, a palatable malted food.

She had gone down to 95 pounds and after a few months' use of HEMO she now weighs 121 pounds and still gaining flesh. Her vitality has increased wonderfully and they are now converted to the idea that proper feeding is the thing.

HEMO is the right food for those generally debilitated from malnutrition, anaemia, chlorosis, also for convalescents from surgical treatment, fevers and wasting diseases.

If your health is impaired, try HEMO and watch the improvement. We suggest that you try a 50c package with our guarantee of satisfaction.
